

## Installation Instructions

Use Terminal to navigate into the Happy Giraffe folder.

Then

```
$ cd server
```

```
$ npm install
```

```
$ nodemon server
```

This will get the server running.

Then use terminal to navigate into the frontend directory.

```
$ npm install
```

```
$ npm start
```

Hopefully, npm install will install all dependencies.

Otherwise, here is a list of dependencies for:
